

SILK CARE??? NO PROBLEM!!!

- ⌚ Always **follow the instructions** attached with silk items.
- ⌚ **Avoid direct contact with chemicals**, e.g. perfumes, hair spray, etc.
- ⌚ If you **spill something on your silk item**, take it to the laundry, tell them what you spilled and they will solve the problem for you. Do not put water on the spotted area.

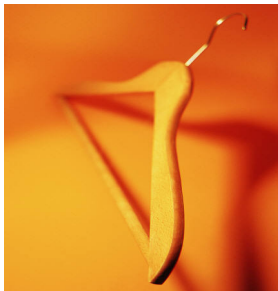

TIPS FOR WASHING SILK ITEMS

Instructions for washing are often attached with silk items. Bring them to the dry cleaners if it is required. Otherwise, you can hand wash silk items in cold water with soft liquid soap and iron when they are still humid. Details are as follows:

☞ Use a **mild soap** and **cool or warm water**. Shampoo is an alternative!

☞ **Several drops of lemon juice or vinegar in the rinse water** can make your silk item shinier.

☞ **Wash separately** silk items with different colours.

☞ **Handle gently** silk items. **Do not wring or twist**. Roll silk items in a towel to remove moisture quickly.

☞ **Do not use pre-soak products** or chlorine bleach.

☞ Hang silk items **away from strong sunlight** until damp dry.

IRONING SILK ITEMS

- Ⓢ Always iron silk items **on the wrong side**.
- Ⓢ For both dry and steam iron, always iron **at warm setting**.
- Ⓢ When iron **on the right side** for touch-up, **use a press cloth**.

SECRETS OF HIGH QUALITY SILK

Every step in the production process has its own importance in leading to the final quality of silk garment.

- ☺ Good silk items give a **soft and smooth feeling**.
